Bird Treks

With Naturalist Al Grass
October - December 2014

Join Naturalist Al Grass on a FREE monthly guided walk. Walks run from 10:00 am to noon on the third Saturday of the month, and go rain or shine. Everyone welcome.

October 18th - Burnaby Lake Regional Park

Meet at the Nature House at the foot of Piper Ave. Always good fall birding.

November 15th - George C. Reifel Migratory Bird Sanctuary

Meet next to the Gift Shop. Small admission charge for non-members. Snow Geese are back! Raptors too.

December 20th - Hastings Park Sanctuary

Meet at the statue of the runners (Hastings & Renfrew). A little gem of a park, full of surprises.

FEEDING HUMMINGBIRDS

Anna's Hummers have returned (or stayed here all Summer) and it's time for a repeat of best feeding practices. Hummers get ALL of their protein, vitamins and minerals from flying insects, and even spiders. The sugar water we feed them has no nutrition, it just provides carbohydrates for energy and warmth in the Winter, and water for cooling in the summer. Honey can cause a fatal fungus on their tongues, while the iron in brown or raw sugar can also be fatal. The experts all agree that white granulated sugar is best. A ratio of one cup of sugar to four cups of water is identical to the nectar in flowers. In really cold weather we recommend a one to three solution to provide more energy for warmth.

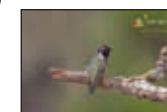

SEED & SUET SALE

Our winter Seed & Suet sale is on for the month of October, But there are changes coming which will provide better savings and rewards for you without the need for storage.

This new program will take effect on January first, so we suggest you only purchase and store as much as you will need until then.
